

## **Management Committee**

The Management Committee is made up of the General Manager plus the 4 Managers of our Charity Shops and Scrap Store.

The committee meets when the need arises to ensure that the managers responsible for the day to day running of their sections are doing so successfully to support all volunteers and the objectives of the Charity.

It is the General Managers role to plan strategy and to ensure that all areas of the Charity comply with Health and Safety and other legislation.

In addition, the General Manager encourages volunteers to work to their potential and liaises with accompanying services.
